This course is applicable to:

- Any version of Git

Git: The Big Picture

GETTING TO KNOW GIT

Paolo Perrotta

FREELANCE DEVELOPER

@nusco

Git tracks changes to source code

Overview

Demo: Git in a nutshell

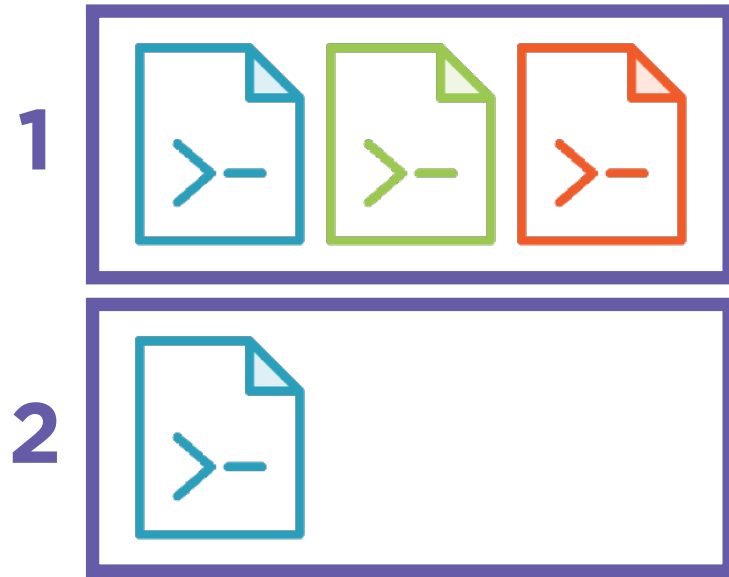

Introduction to version control

The things that make Git special

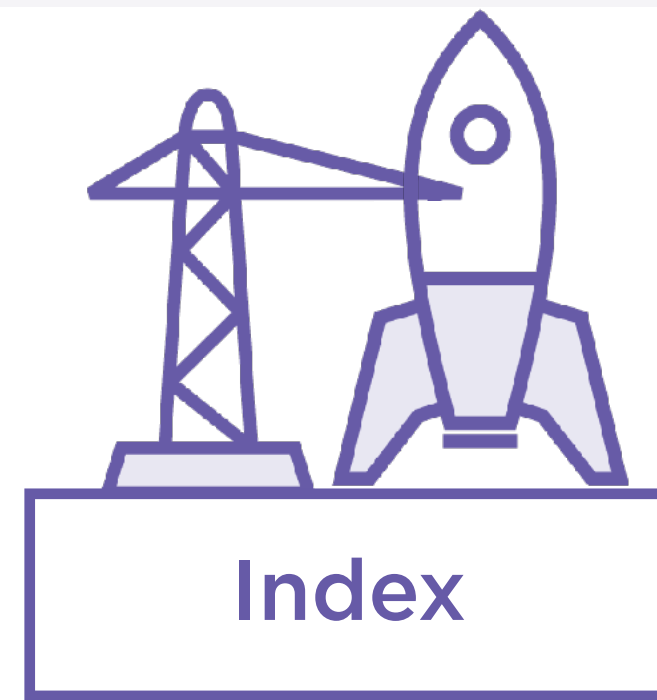

GitHub and the Git ecosystem

A Demo of Git

Repository

Project

Summary

We created a Git repository

We created two commits

We checked the difference between them

We traveled back and forth in time
